Preface

THE rapid growth of the city during the last decade called for an expansion of municipal activities along various lines and the Public Library responding to the call has established a number of agencies for widening the circle of its activities. Branch Libraries have been erected according to a deliberate program of strategy and at this date, eleven branches are in full swing, nine of them being located in their own buildings. Five of these new quarters were acquired through the munificence of Mr. Andrew Carnegie with the city furnishing generous sites. For two of the branches, the city has defrayed the cost in toto while two have come into being through private generosity.

The branches now in operation represent an investment of approximately a half-million dollars, an annual circulation of 600,000 issues and a personnel of about sixty library attendants.

It may be of considerable interest to the citizens of Detroit to have before them at least a partial record of the modern library facilities at their service and it may also in a measure illustrate the economic requirements of the library system, cost of maintenance, books and organization.

Chauncy Hurlbut Branch

1898

A one room, memorial building in Gladwin Park.

Source—Gift: Chauncy Hurlbut Estate.

John S. Gray Branch

Erected 1906

Remodeled and Enlarged 1913

Location—Field and Agnes Avenues.

Dimensions—Lot 80' front x 180' deep.
Building 72' x 75'.

Architecture—Modified modern Italian.

Construction—Foundation: Concrete
footings, brick walls. Gray brick, trimmed
with sandstone.

Roof—Slate.

Heating—Steam.

Ventilation—Mechanical.

Lighting—Semi-indirect electric.

Woodwork—Tinted oak.

Basement—Auditorium (capacity 400),
Club room, Boiler room, Janitor's quarters.

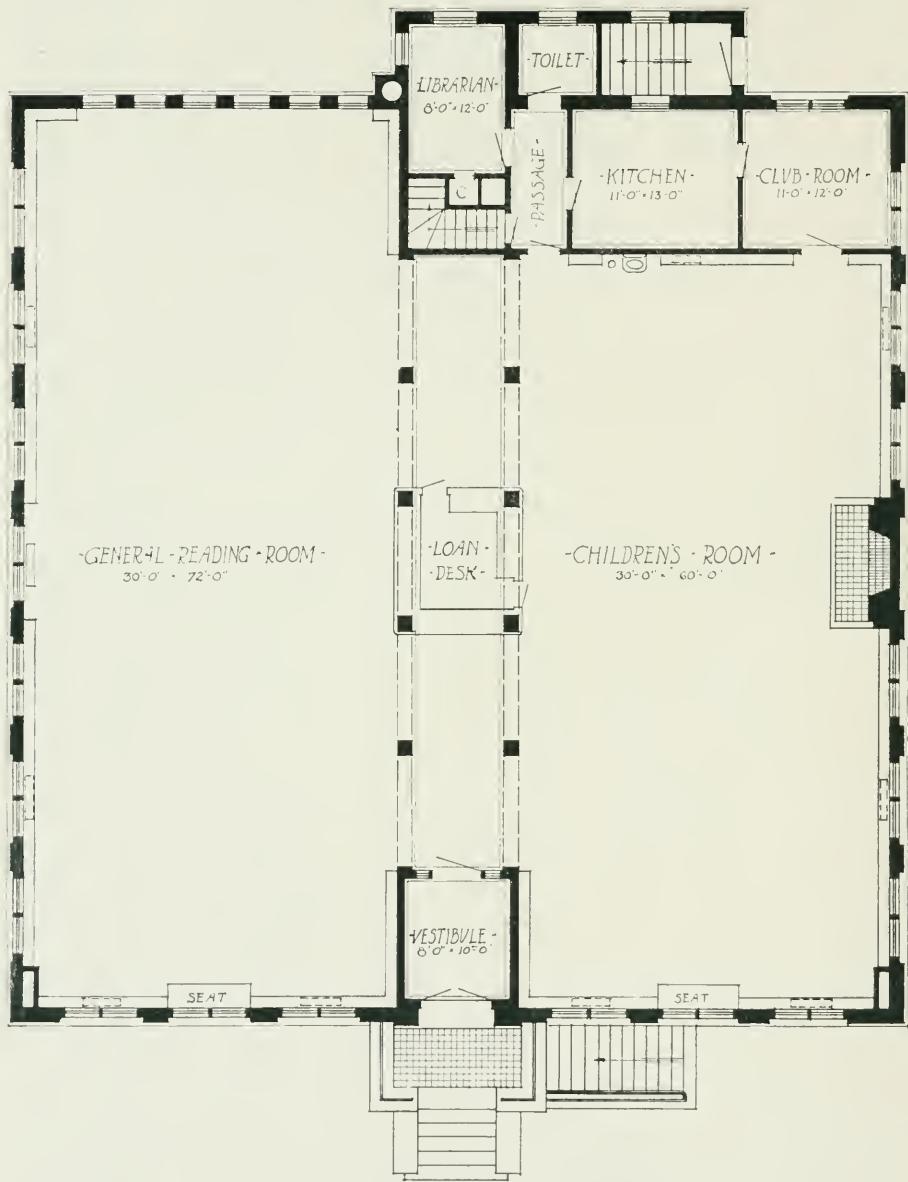

Main floor—General Reading room,
Children's room, Librarian's office, Staff
room.

Source—City appropriation.

Cost—Original, \$9,750.00
Remodeling, \$20,332.81

Architects—Malcomson & Higginbotham.

John S. Gray Branch

James E. Scripps Branch

1908-9

Location—Scripps Park.

Dimensions—Park 1.333 acres. Building
—remodeled residence—100' x 39'.

Construction—Foundation: Concrete
footings, stone walls and piers. Brick
and sandstone trimming.

Roof—Slate.

Heating—Steam.

Ventilation—Natural.

Lighting—Direct electric.

Woodwork—Red oak.

Basement—Store room, Boiler room, Jani-
tor's quarters.

Main floor—General Reading room,
Children's room, Librarian's office.

Second floor—Auditorium (capacity 200),
Club rooms, Staff room.

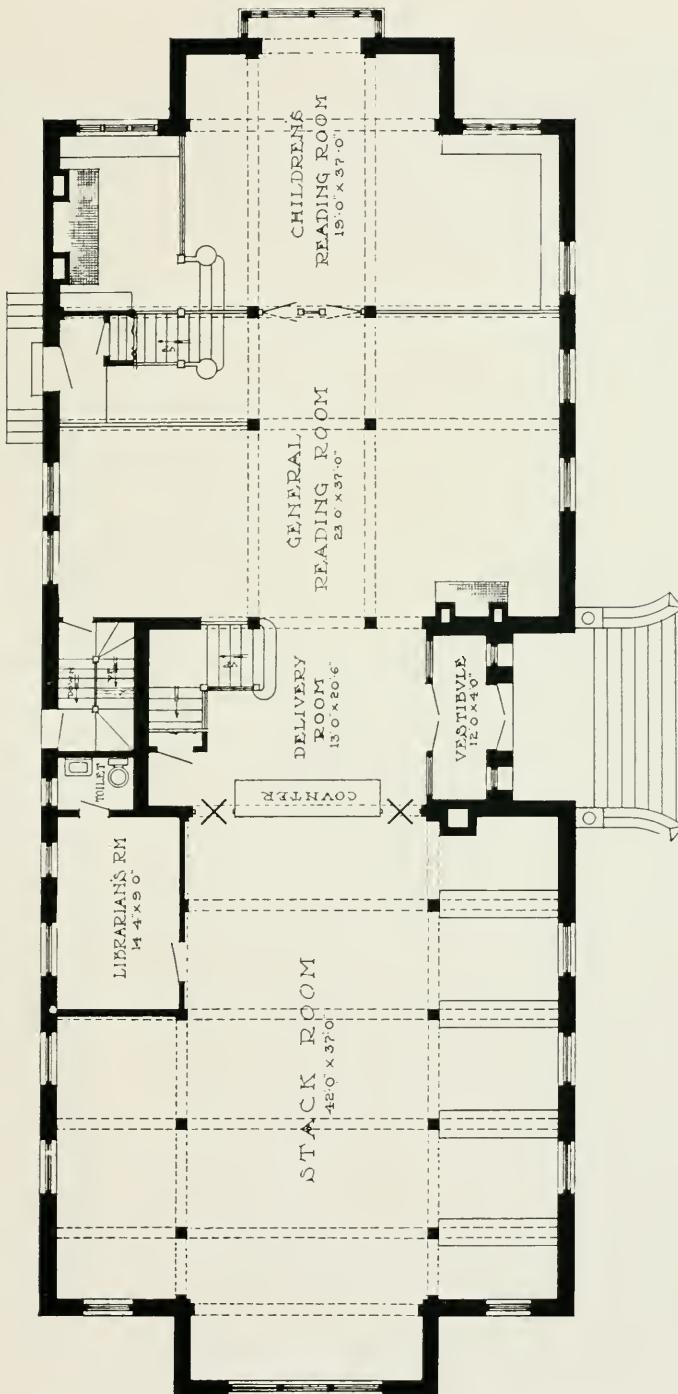

Third floor—Store rooms, Mending room.

Source—Gift: The James E. Scripps heirs.

Cost of remodeling—\$27,140.40.

Architects—Smith, Hinchman & Grylls.

James E. Scripps Branch

George S. Hosmer Branch

Erected 1910-11

Location—Gratiot Avenue and Pulford Street.

Dimensions—Lot (irregular) 82' front x 103' deep (west side) x 159' deep (east side) x 80' (rear).

Building 72' x 49'.

Architecture—Italian Renaissance.

Construction—Foundation: Brick and concrete. Kittanning brick and Bedford stone.

Roof—Composition.

Heating—Steam.

Ventilation—Natural.

Lighting—Direct electric.

Woodwork—Red oak finish.

Basement—Auditorium (capacity 200), Club room, Staff room, Boiler room.

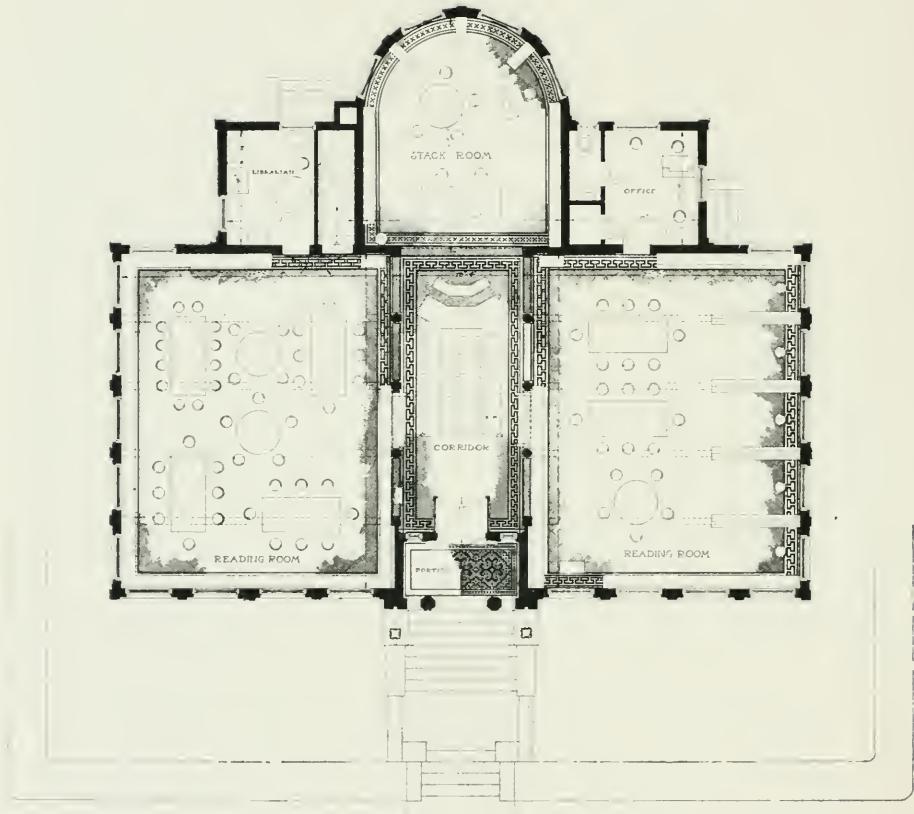

Main floor—General Reading room, Children's room, Reference room, Librarian's office, Staff room.

Source—City appropriation.

Cost—\$24,543.90.

Architect—Louis Kamper.

George S. Hosmer Branch

George V. N. Lothrop Branch

Erected 1911-12

Location—West Warren Avenue and Grand Boulevard.

Dimensions—Lot 180' front x 130' deep.
Building 99' x 64'6".

Architecture—Georgian period.

Construction—Foundation: Brick and concrete. Brick, stone and reinforced concrete. Cork tile and Terrazzo flooring.

Roof—Slate.

Heating—Direct and indirect steam.

Ventilation—Indirect steam.

Lighting—Direct electric.

Woodwork—Fumed oak.

Basement—Boiler room, Mending room, Store room.

Main floor—General Reading room, Reference room, Children's room, Librarian's office, Staff room, Auditorium (capacity 100), Reading porch.

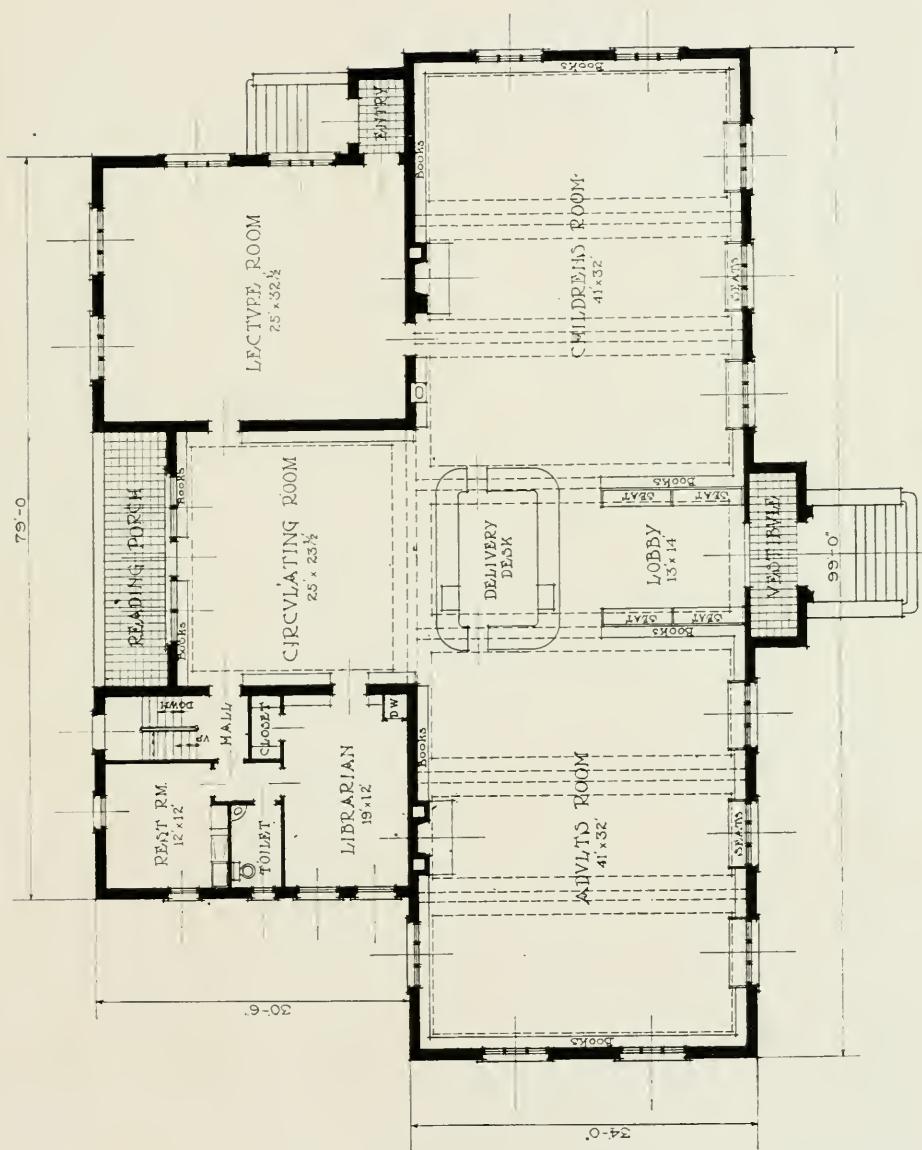

Mezzanine floor—Club room, Rest room, Gallery.

Source—Gift: Andrew Carnegie.

Cost—\$40,000.

Architect—B. C. Wetzel.

George V. N. Lothrop Branch

Herbert Bowen Branch

Erected 1911-12

Location—Dix Avenue and West Grand Boulevard.

Dimensions—Lot 175' front x 130' deep.
Building 103' x 73'8".

Architecture—English collegiate.

Construction—Foundation: Reinforced concrete. Interior walls hollow tile; exterior, buff Ohio stone and red vitrified brick.

Roof—Slate.

Heating—Steam.
